

How to Delete Your Design Files from Quilt-Pro 6

1. From Quilt-Pro's File menu choose Open/My Projects. When the "My Projects Open" dialog box appears, you should see folders for Blocks, Borders, Fabrics, Quilts, etc listed. Open the folder for the files you want to delete. In this lesson I am going to delete a quilt file.
2. Right click on the file you want to delete.
3. When the right click menu appears, choose Delete from the menu. And just like that, it's gone!
4. Now click Cancel to close the "My Projects Open" dialog box.

Restoring a Deleted File.

If you accidentally delete the wrong file, open your computers Recycle Bin and restore the file.
